

International Forum on Marine Environment and Ecosystem

The *International Forum on Marine Environment and Ecosystem* (IFMEE) was proposed by the UArctic-HIT-Training Centre (The first Regional Center of the University of the Arctic outside the Arctic Circle) and hosted by the Dalian Maritime University and the UArctic-HIT-Training Centre with the support from Norwegian University of Life Sciences and the Institute of Coastal Environmental Chemistry, Germany. IFMEE will be held 3 times a year, in which world's top experts in the field of marine environment and ecosystem will be invited to present their results of the cutting-edge research on line via ZOOM to scientists and students worldwide. All lectures provided by the IFMEE are free of charge.

International Academic Committee:

Dr. Yi-Fan Li, Professor, Dalian Maritime University and Harbin Institute of Technology, China, Member of the Norwegian Polar Research Academy

Dr. Roland Kallenborn, Professor, Norwegian University of Life Sciences, Norway, UArctic Chair for Arctic Environmental Pollution Research, Member of the Norwegian Polar Research Academy

Dr. Derek Muir, Senior Research Scientist, the Environment and Climate Change of Canada, Fellow of Canada's National Academy of Science

Dr. Ralf Ebinghaus, Director, Institute of Coastal Environmental Chemistry, Professor, Leuphana University of Lüneburg. Germany

Dr. Dan Xu, Professor, Dalian Maritime University, China

Secretary:

Dr. Hongliang Jia, Associate Professor, Dalian Maritime University

International Organizing Committee:

Dr. Dan Xu, Dean, College of Environmental Science and Engineering, Dalian Maritime University, China

Dr. Yi-Fan Li, Director, the UArctic-HIT Training Centre, the University of the Arctic

Dr. Hongliang Jia, Chair, Department of marine resources and environment, School of Environmental Science and Engineering, Dalian Maritime University, China
